

BRAEMAR

The home of
integrated marine
energy services

Braemar provides expert services to the shipping, marine, energy, offshore and insurance industries.

Braemar Shipping Services Plc is listed on the London Stock Exchange. With over 1000 staff across the group in 70+ locations, Braemar delivers the global reach you want with the local knowledge you need. From marine engineering, offshore and environmental consultancy through to incident response, equipment damage surveys and loss adjusting, commercial vessel design, commissioning, chartering and port agency services, Braemar provides an unparalleled breadth of integrated services for our clients.

“From its beginnings in shipbroking, Braemar has grown to become a comprehensive international provider of shipbroking, surveying, engineering, consulting and logistics services to the marine, insurance, offshore and energy industries. Each of Braemar’s businesses is highly regarded in its field, and our ability to bring together skills from across the group allows us to offer a unique service for our clients. Wherever in the world we are needed, our track record, breadth of service offering and global presence make us the partner you can rely on.”

James Kidwell
Chief Executive

Shipbroking

Braemar’s shipbroking division offers spot and period chartering, sale and purchase, market research and freight derivatives brokering across all major commercial shipping sectors.

Technical

Braemar’s technical division offers a broad range of complementary adjusting, engineering, marine surveying, consultancy and environmental services to the marine, offshore, energy and insurance sectors.

Logistics

Braemar’s logistics division offers worldwide services for port agency, liner and logistics through a network of offices and trusted partners.
